A signed Septic Compliance Inspection Under Flood Conditions Extension Agreement may be accepted in lieu of a compliance inspection for property transfers and permit applications to the Land Services Department when flood conditions on the property exist and make it impossible to determine septic system compliance. This agreement is valid for six months from the date signed. A compliance inspection must be submitted to our office within six months or, if flood conditions are still present, a new flood agreement must be entered in to.

Failure to fulfill all the obligations of the flood agreement shall be a violation of the Ordinance.

Reason for Extension Agreement:     Land Use Permit     Property Transfer

**I hereby swear and affirm that the above information is true and correct. I further certify that flood conditions are present on the property described above and that a septic system inspection cannot be performed as of the date of attempted inspection. I acknowledge receipt of information on what to do with my septic system during a flood.**
